8. Creation and deletion of properties
9. Price calculations.

Technologies used: ReactJs, NextJs 13, TypeScript, Tailwind Css, Prisma, MongoDB, NextAuth.

PROFESSIONAL EXPERIENCE

Professional Development(Career Break)

April 2020 - May 2023

During this break, I took the opportunity to focus on my professional development by exploring and studying the fields of Software Engineering and Cybersecurity. This break has provided me with a chance to learn new skills and knowledge that can help me become more competitive and valuable in my future career endeavors. Through self-directed learning and various online courses, I have gained insights into the latest industry trends and best practices. I am now equipped with new skills, fresh perspectives, and a renewed passion for the technology industry

IT support Attache | National Hospital Insurance Fund

March 2018 - May 2018 | Nairobi.

This role involved providing technical support to employees and customers through various channels, including phone, email, or chat. This included troubleshooting technical issues, diagnosing problems, and providing solutions. The role also involved installing and configuring software on desktops, laptops, and servers, performing routine maintenance tasks such as updating antivirus software and applying software patches, and assisting with network and server management to ensure data security. I was also responsible for documenting technical issues and solutions for future reference, providing training to employees on how to use new software or hardware, and collaborating with other departments to resolve technical issues and ensure smooth operations. The required skills for this role included proficiency in Linux and Windows, as well as technical support experience.
